

Pfizer promotes entrepreneurship at ETH

The Pioneer Fellowships support researchers with entrepreneurial ambitions like Mandy Boontanrart on their path to a start-up.

Pharmaceutical company Pfizer AG supports the ETH Zurich Pioneer Fellowship programme with a donation to the ETH Foundation.

The Pioneer Fellowship programme provides start-up capital, coaching and access to labs for outstanding researchers with entrepreneurial ambitions at ETH striving towards a marketable product. Pfizer's support enables young people to transform their ideas into groundbreaking products and innovative services and make them available to society

"It means a lot to us to be able to support this important programme at ETH and help promote Switzerland as a research location and innovation hub," says Sabine Bruckner, Country Manager at Pfizer Switzerland.
