

Fact sheet ETH Foundation Germany

As a world-leading university for technology and science, ETH Zurich is known for its excellent teaching, ground-breaking basic research and direct transfer of new findings into practice. Together, we build bridges between science-oriented communities in Germany and ETH Zurich because we share a conviction that great things can be achieved with world-class education and research. We determine the right fields for the strategic funding goals and cherished projects of companies, foundations and private individuals, organise personal meetings and visits to labs, and exchange information at events in Germany and Switzerland.

We look forward to hearing from you!
